

Parent/Student Connection Barcode ID

School sites use barcode scanners to scan student IDs. In some instances, the barcode is used to scan in the cafeteria, and to check in and out materials in the library. The student barcode is accessible on any mobile browser by going to studentconnect.pusd.org; select [Parent Connection](#) if you are a parent, or [Student Connection](#) if you are a student. You may also go to the Apple App Store or Google Play Store and download Q Parent Connection or Q Student Connection mobile app.

1. Log into the Parent/Student Connection Portal and select a student to view the tabs.

2. After selecting the student, click on Student Id Card to view the barcode.

3. The student ID barcode will be displayed on the screen.

Download the app at the App Store or Google Play
